Lawn Replacement

Swapping out turf for water-wise plants not only enhances your landscape but also conserves water and supports a healthier environment. Many homeowners who participate in the Lawn Replacement Program by Resource Central see savings on their water bills and spend less time and money on upkeep after making the switch. Plus, a diverse, water-smart garden attracts pollinators like bees and hummingbirds, creating a thriving ecosystem right in your own backyard.

How the Lawn Replacement Program Works

Save water and reduce your water bill by replacing your grass with a water-wise landscape! Apply for up to \$750 in discounts with our partner Resource Central when you agree to remove at least 200 square feet of healthy turf. This program has two ways to use your discount: DIY with complimentary gardens OR discounted lawn removal service. Included with your application is a free project consultation.

You MUST apply through Resource Central first to be eligible for the discount on lawn removal service or gardens.

- **Hire Resource Central to remove at least 200 square feet of lawn.** As an LTWD customer, you'll receive up to \$750 off the labor cost, applied directly as a discount. The normal rate for lawn removal is \$2.75 per square foot, but with your LTWD discount, you'll pay just \$1 per square foot for up to 454 square feet of turf removed. You can remove more, but you'll pay the full \$2.75 per square foot after the discount is used.
- **DIY: complete the lawn removal yourself or hire your own contractor.** With this option, your discount can be applied toward up to four Garden In A Box kits from Resource Central, which will equip you with water-wise plants for your new landscape. Each kit includes plant-by-number maps and plant and care guides!

Lawn Replacement Benefits

- Gain expertise on the best approaches to removing and replacing turf.
- Save money on your water bill and reduce your environmental footprint.
- Increase pollinators in your yard by diversifying plants in your landscaping.
- Gain curb appeal because of your sustainable landscaping and increased color and biodiversity.

Replace Turf and Revitalize Your Landscape

Learn more about the Lawn Replacement Program requirements, pricing and apply for the program through Resource Central. Applications for 2026 are now open.
